Nauticat S series

Nauticat S series

Nautilcat

S 340

If you are a sailor who likes a high degree of sailing performance the completely new NAUTICAT S-series is now available. The boats offer considerable comfort in modern style for those who prefer a cockpit instead of a closed wheelhouse. The NAUTICAT S-340 is based on the famous Finnsailer 34 built by Fiskars and designed by the well-known Finnish designer Hans Groop. A very popular boat in its class with well proven quality and design, this motorsailer has taken part in the 1981 Transatlantic race, an achievement which would do credit to any yacht of its size. The interior finish and engineering methods are the same as in the famous NAUTICAT motorsailers giving warmth and comfort as well as a feeling of tradition.

The new NAUTICAT S-series:

NC S 300

NC S 320

NC S 340

NC S 380
